

# THE SHSU GARRETT INSTITUTE CAMPUS CONNECTIONS

The GARRETT INSTITUTE'S CAMPUS CONNECTIONS is an innovative college support program designed to help neurodiverse students, with a disability, as they attend SHSU in-person, virtually, or attend the SHSU Online Degree Program. The Garrett Institute has partnered with Bloom Consulting to offer students additional supports that begin with an assessment to help the student identify support needs. The information is used to match the student with a coach who then provides mentoring, guidance, and a navigational support system.

**Examples of supports may include, but are not limited to:**

- Weekly 1-on-1 support sessions with the mentor coach
- Weekly group skills training/activities focusing on soft skills
- Monthly wraparound progress meetings
- Internship opportunities arranged by Bloom Consulting and the Garrett Institute
- Post-graduation job placement support
